

SHERAY VATSYA

B.Tech CSE Student | Aspiring Web & Software Developer

Baraut, Uttar Pradesh, India • +91 7895512286

sherayvatsya@gmail.com

linkedin.com/in/sherayvatsya • github.com/sherayvatsya

PROFESSIONAL SUMMARY

Built and shipped 5 independent web projects as a first-year CS student — including a live hostel complaint management system and a live task tracker — before any formal internship. Comfortable across the front-end stack (HTML5, CSS3, JavaScript) with hands-on Python, and currently extending into React and SQL. Looking for an internship where that same self-starter output can go to work on a real codebase.

EDUCATION

B.Tech — Computer Science & Engineering: NIELIT Ropar (National Institute of Electronics & Information Technology) — Pursuing • CGPA: 9.0 (Semester 1)

Class XII — CBSE: 2024

Class X — CBSE: 2022

TECHNICAL SKILLS

Proven: HTML5, CSS3, JavaScript (ES6+), Python, C, C++, Git & GitHub (branching, commits, pull requests)

Learning Now: React, Node.js, Express, REST APIs, SQL / Database design, MongoDB

Deployment: Vercel, GitHub Pages, MongoDB Atlas, Render, Netlify

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, AI Fundamentals, Prompt Engineering

PROJECTS

Hostel Complaint Management System ★ **DEPLOYED**

React, Express JS, MongoDB

Live: <https://hostel-complaint-system-amber.vercel.app/> • Code: <https://github.com/sherayvatsya/Hostel-Complaint-System>

- Replaced a paper-based complaint process with a deployed web app for logging, tracking, and resolving hostel maintenance issues, live and publicly accessible.
- Structured the complaint workflow (submission → status → resolution) to give students visibility into request progress without needing to follow up manually.

To-Do List App ★ **DEPLOYED**

HTML, CSS, JavaScript

Live: <https://to-do-list-app-beta-neon.vercel.app/signin.html> • Code: <https://github.com/sherayvatsya/TO-DO-LIST-APP>

- Shipped a deployed task manager with sign-in, and add/edit/complete/delete functionality, live and usable end-to-end rather than a local-only demo.
- Used persistent storage so tasks and account state survive across sessions, not just a single browser tab.

Inside a Computer ★ **DEPLOYED**

HTML, CSS, JavaScript

Live: <https://inside-a-computer-jet.vercel.app> • Code: <https://github.com/sherayvatsya/Inside-a-Computer>

- Deployed an interactive educational web app breaking down computer hardware and system architecture into a fully responsive, visual walkthrough.

Linear Search Visualizer ★ **DEPLOYED**

HTML, CSS, JavaScript

Live: <https://sherayvatsya.github.io/Linaer-Search/applications.html> • Code: <https://github.com/sherayvatsya/Linear-Search-Visualizer>

- Deployed an animated step-by-step visualizer for the Linear Search algorithm with user-controlled playback speed and color-coded state changes.

Portfolio Website

HTML, CSS, JavaScript

In Progress — Code: github.com/sherayvatsya

- Building a personal portfolio site to centralize and showcase all deployed projects, certifications, and skills in one place.

CERTIFICATIONS & ACHIEVEMENTS

- **Introduction to Artificial Intelligence**

IBM SkillsBuild

- **Prompt Engineering CodeSprint**

Vedam School of Technology

- **Python Essentials 1 & 2**

Cisco Networking Academy

Also completed: be10x AI Tools & ChatGPT Workshop • IIT Patna Frontend Odyssey (Unstop) • IIT Ropar E-Summit'26 — Participation

ADDITIONAL INFORMATION

Evidence of Initiative: Self-taught and shipped 4 production-style projects outside coursework, 3 of them fully deployed and live

Languages: English (Professional) • Hindi (Native)
